1105 Reba Ct  
Fort Worth, TX  
76115

I am currently a student at the University of Texas at Arlington, and will graduate with a BS degree in Information Systems in May 2020. In addition to my technical experience, I also possess significant business and leadership experience, and am extremely motivated to continue to learn and grow. I am passionate about technology and the ways in which it is shaping our modern world, and I have a deep desire to use my skills to make an impact.

## Experience

### *Software Developer - Independent Contractor — January 2019-Present*

I produce a [Ruby on Rails](#) web dashboard to manage employee parking stickers, which I currently license on a monthly basis to Six Flags Over Texas, using a subscription revenue model.

### *Operations, Maintenance Departments - Six Flags Over Texas — 2014-Present*

- **Technology experience.** Wrote Android application ([Java](#)) used internationally at Six Flags VR Coaster installations. Built tools using [JavaScript](#), [jQuery](#), [VBA](#), and [SQL](#) to automate internal processes, saving hundreds of hours of labor.
- **Business experience.** Managed department scheduling, payroll, and purchasing. Processed over \$4.1 million in POs. Communicated with vendors, internal departments, corporate contacts, and invited guests. Implemented cost and efficiency improvements, saving tens of thousands of dollars.
- **Leadership experience.** Led multiple Ride Operations areas, each consisting of dozens of employees and two area supervisors. Provided guidance, recognition, and analysis to improve throughput and guest satisfaction.

### *Software Developer - Overcast Network, LLC — August 2013-December 2015*

Worked remotely with a small team. Maintained and expanded Minecraft gaming network that saw 100k users per week. Launched a large project of my own (a framework for in-game language translations).

- **Technology experience.** Worked on modular game experience (client and server) in [Java](#). Improved public website using [Ruby on Rails](#). Collaborated and managed projects using [Git/GitHub](#), [Slack](#), [Trello](#), and other tools.

*Additional technical experience: MongoDB, Redis, HTML/CSS, SSH, UNIX, Bash*

## Education

University of Texas Arlington, Arlington, TX — BS Information Systems, 2020
